RE: Recommendation of Tinmaster, Inc.

To Whom it May Concern:

Tinmaster, Inc. has been part of Foley Company's team on several, critical construction projects, most notably Sprint Center Arena and Kauffman Stadium Renovations. Tinmaster's staff is knowledgeable and conducts business in a professional and efficient manner. Each project had unique challenges and Tinmaster's expertise, as well as their ability to complete the project timely, added immense value.

I confidently recommend Tinmaster for future sheetmetal construction projects.

Please feel free to contact me for additional information regarding my experience with Tinmaster, Inc.

Sincerely,

Thomas A Benassi
Vice-President of Preconstruction
